BLACK SALT

Service to our clients is always a priority to us. We continuously upgrade work procedures and working environment. We have Young & Dynamic professionals with zeal to process each order with finesse. Our employees are periodically trained specially to have a customer centric approach and for their overall development.

The business processes and systems are designed to maintain the needed quality and cost. The pre-planned approach is followed to build strong and lasting relationship with customers.

TIERRA OVERSEAS is steadily expanding its wings and it has already supplied products to major markets of the world like USA, Peru, Germany, Spain, Netherlands, Czech Republic and Malaysia.

Black salt is typically available in two forms: coarse crystals and fine powder. Black salt fine powder is created by grinding the coarse crystals into a finer texture, making it easier to incorporate into dishes and seasoning mixes. It has a grey to pinkish color when ground.

## **Grades Available**

1. Flavouring Grade
